

## CELEMETRIX SERVICE CAPABILITIES - SPLICERS

### SPLICER VERIFICATION SERVICE

Celemetrix Australia offers a **Splicer Verification Service - \$585 +GST** which includes the following:

- Basic cleaning of unit
- Basic diagnostic tests via splicer menu options performed including ARC calibration and stabilisation of electrodes where required
- Splice quality measuring “actual losses” produced and verified using Optical Loss Test Set system
- Ribbon splicers will be given losses as measured by customers unit
- Maintenance date will be set if possible – dependant on software.

Please note software upgrades where available.

Celemetrix also offers replacement of the following parts where required, (subject to availability), at additional charge:

- Battery Packs
- PSUs
- Genuine Electrodes
- Fibre clamps
- Mirrors
- Heater Oven Assemblies

Please note that any further adjustments are covered under the Splicer Verification Service Fee.

### SPLICER REPAIRS

Please note that if your splicer requires any repairs you will be quoted to send the equipment for service at a 3<sup>rd</sup> party supplier.
